

### NEW! Magus Silver XR with new Lowther DX65 drivers

Magus Silver XR provides all of the Magus Silver advantages - sonic clarity, coherence, and dynamics - while pushing the sonic qualities even further. Offering extended range on both low and high frequencies, enhanced resolution, 100 dB sensitivity... [Read more](#)

### NEW Gold Standard for Interconnects!

Teresononic's new Clarison Gold interconnect cables feature 99.999 per cent (5N) pure 24-carat solid gold conductors that enable the ultimate in sound quality. It's like \$20,000 upgrade in your analog or digital systems... [Read more](#)

### Performance Analog package:

Clearaudio Performance featuring new Ceramic Magnetic Bearing (CMB), an outboard AC synchronous motor, and Satisfy Carbon Fiber tonearm.

There aren't many audiophile products that can change how we enjoy music. Teresononic recently announced two such products (see the sidebar). Also, don't miss on some great specials available after the CES/THE show (Las Vegas 2010).

### Magus demo (2 pairs available)

There are two Magus demo pairs available for sale. They are in like new conditions and are coming with new DX55 drivers and full 3 year warranty. In addition, DX55s can be upgraded (on customer site!!!) to DX65s if needed. There is even a trade-in program available! **Don't miss this great offer at \$3,485 (regular \$3,985).**

### Clarison Gold demo unit (1 available)

Introduction of Clarison Gold interconnects exceeded all expectations. Customers and the press said:

*"I am crazy about the Gold cables. The presentation from my system is far more natural and yet more exciting at the same time."* MikeM, Dallas, TX

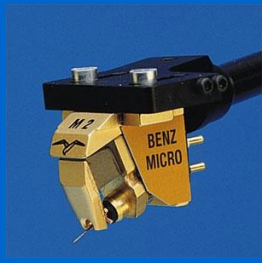

*"Golds are so mellifluous and harmonious that you just want more. If you like Cardas or PAD, you will go nuts over the Golds. If you are running tubes, you may like these a lot. If you are running solid state, you may need these a lot."* - Bob Levi, Dec 2009  
<http://www.positive-feedback.com/Issue47/teresonic.htm>

The Gold cable can do the same magic for your sound. **This 1m/RCA demo unit is only \$1,995 (regular \$2,995) - don't miss it.**

### Performance Analog package (2 sets)

The magic of the black disk can be expensive and complicated to match tables, tonearms, cartridges, phono stages, and cables. This package is created after careful evaluation of many components in our listening room. Some of the best components for the money are selected to build upon each other's best characteristics. **This package is specially priced at \$4,995 (regular \$6,170) and contains:**

**Clearaudio Performance** featuring the new Ceramic Magnetic Bearing (CMB). It magnetically levitates the 40mm acrylic platter for reduced friction, and greater speed stability. The plinth is a composite construction

Benz Micro "Glider" SL (low output) cartridge is hand made in Switzerland. A bestsellers for years. Why? The Glider makes beautiful music! Open, rich and lively in a way that many cartridges wish they were.

Signal conductors in CLARISON Silver are silver-plated litz. 24k Gold plated connectors are German made WBT. Teresonic hi-tech shielding for full signal protection.

of synthetic marble sandwiching a MDF core with aluminum banding. An outboard AC synchronous motor and Satisfy Carbon Fiber tonearm featuring magnetic anti-skating and 3 point ruby jewel bearings complete the package. Made in Germany (\$2,800).

**Benz Micro "Glider" SL** (low output) cartridge incorporates the Benz Dynascan with Gyger S stylus, new coil windings, and refined pole pieces/damper designs. The Benz Dynascan, combining the Gyger S stylus side bonded to a solid boron cantilever at the Swiss factory by hand, complete this outstanding cartridge. (\$1,000)

**Teresonic Clarison Silver** interconnect cables are specially designed for high-end audio applications to provide the ultimate signal protection. They simply reveal more of the musical detail than any other cable, while allowing the music to sound more natural than any other cable – by a wide margin. Two (2) sets of cables are included to connect the table to phono stage and phono stage to your amp (2 x \$685)

Nova Phomena battery operated phono stage features two rechargeable internal NiMH dual mono battery packs with Smart Sensing auto recharge feature.

**Nova Phomena** -Built in California, is a battery powered phono stage with incredible flexibility and performance. Based on the discrete, dual mono circuit developed by designer Michael Yee for the SuperNova, the Nova has rear panel accessible switches for gain and loading. The Nova features a cool proximity detection switch on the front panel with status LEDs for changing mode. (\$1,000)

### Magus Silver XR listening test

*"With the Ingenium Silver, you experience all the textures and harmonics of live music. They let you hear how the decay of instruments and acoustical environments sound,"* says Jack Roberts of Dagogo.com. *"The music blooms and feels much more like real music. The whole listening experience becomes about the sounds and feelings of the music in a way that transcends an electronic listening experience."* (see [article](#))

## Upgrade your Magus with Lowther DX65 Silver drivers!

Teresonic announced Magus Silver XR with new Lowther DX65 (silver) drivers. It got rave reviews (see sidebar). We decided to offer this amazing new driver to all Magus customers through an upgrade program. We will even offer to trade-in your existing DX55s. **DX65 Silvers are \$2,485/pair but you can upgrade for only \$1,685 with your DX55 trade-in.**

### Ingenium at THE show 2010

*"...astounding sensitivity and LF extension ... the sound of the Ingeniums from LP did have superb dynamics and clarity, with good bass extension."* – John Atkinson, Stereophile, Jan 2010

### Ingenium demo (1 available)

Ingeniums are rarely available as demo units (if ever), so we are pleased to offer this pair. They are in beautiful condition with possible slight imperfections that are hard to notice. They are equipped with brand new DX3 drivers and full 3 year warranty. In addition drivers can be upgraded (on site) to DX4 drivers. **This demo pair is only \$8,495 (regular\$9,985) – don't miss it.**
